

PREPARING FOR SEVERE WEATHER

BEFORE

Prepare a 72 hour kit, have an emergency plan, trim dead branches and trees, secure outdoor furniture, clear gutters and drains, know where utility shut offs are for your home

DURING

stay indoors, avoid traveling on roads, be prepared for power outages, listen for local updates via radio and community notification systems

AFTER

Check your home for damages, check in on neighbors, stay clear of downed lines and trees, avoid flooded areas
