

Ocean Shoreline Cleanup

We are planning to clean between Gilbert's Cove and Savary Park - March 21, 2024.

Adults arrive & start to clean the shoreline at 11 AM, students arrive at 1 PM after the tide has subsided to ensure safety.

Coastal Action will provide gloves (including youth sizes), snacks, water and the feed bags we use to pick up garbage. We'll also have our UTV to ferry trash & wagons around, in case there is any large debris that has to be towed down the shore.

A Sorting Station will be set up for the debris to be dropped off and the team will lead the sorting and data collection part of the event.
