

About Me

I am the new Community Health Registered Nurse here at The Bear River Health Center.

Aside from being a nurse, I am a mother, a wife, and an energy healer. I look forward to learning more about the indigenous way of life, as a Métis woman myself, I am eager to learn more about my own roots and how to best serve your community & the well-being of its future.

Hello! I'm Kayte Pariera!

I can't wait to see what we can create together in the future.
